

## VOICE CART: DETAILED USAGE

### Drop down menu options:-

**Email:** Email shopping cart. This option also includes the provision to save it to google drive.

**Save:** Saves the shopping cart to app internal memory. Shopping cart will be indexed by date.

**Restore:** Restores shopping cart from internal memory for the date chosen through the calendar. The shopping cart for the chosen date should be saved earlier

**Autofill:** Auto generate shopping cart based on prior purchase history and frequency

**Custom Voice Commands:**

Pressing the voice command button enables voice based entry of shopping cart.

The following custom voice command may be used to delete an item from the shopping cart:-

***cancel item 'n'*** - pronouncing this command will cause the n-th item to be deleted from the shopping cart.
